IS YOUR PROPERTY FLOOD READY?

A guide to making your property flood ready

FARM FLOOD READINESS KIT

"During 2022, more than half of the state was impacted by extreme weather — often by more than one weather event in just a few months."

WHY DO YOU NEED A FLOOD PLAN?

- You are not guaranteed financial or farm assistance when floods occur.
- You need to know what to do and when to do it to reduce damage and losses.
- Every flood is different. You need to plan for all risks and possible impacts.
- If you are prepared you will recover much guicker and be able to get back to business.
- The damage and losses caused by floods can be very high. It costs a lot of money and takes a long time to clean up your property, repair fences and feed livestock.
- It is cheaper to plan ahead and be prepared than pay the costs of repairs or lose income and production time.
- Can you afford not to have a flood plan?

"The 25 January-14 February 2019 flooding from the North and Far North Queensland Monsoon Trough saw over half of Queensland's councils, covering more than 56% of Queensland's land mass, activated for disaster funding assistance. Prior to the Monsoon Trough, more than half of Queensland was suffering prolonged drought, and following the Monsoon Trough, 67.4% of Queensland was drought declared."

Having a flood plan can help prevent damage and losses on your farm:

- Dead livestock
- Destroyed equipment
- Debris and waste
- Loss of access to property
- Erosion
- Blocked drains
- Damaged fences

Be prepared

Ensure your property has:

- Clear laneways
- · High ground with access to fodder and
- water
- Tools for clearing damage
- Appropriate storage
- Stored fodder
- Appropriate land management systems

Know what your risks are - complete the flood readiness checklist and identify the risks

and hazards on your property

Know what to do to reduces risks - develop an action list to reduce your risks and make your property flood ready

Know what to do when a flood is coming - develop a flood plan and ensure you know where to get information about floods and warnings

Do you have livestock or other animals?

Have safe high ground with access to food, clean water and shelter.

Keep up to date with warnings and start moving livestock early.

Can your property be isolated?

Store food, clean water, battery radio, generator, fuel, first aid kit, medications, AVGAS and emergency contacts.

Move necessities above expected flood levels. Make sure they remain dry.

Do you store chemicals on your property?

Store in shed off the ground so they can't be washed away.

Ensure all chemicals are stored and shed securely locked.

Use the flood readiness checklist to help you identify the risks and hazards on your property and develop an action list.

WHERE TO GET INFORMATION ABOUT FLOODS AND WARNINGS

Queensland has adopted the Australian Warning System (AWS). The Australian Warning System is a new national approach to information and Calls to Actions for hazards like bushfire, flood, storm, cyclone, extreme heat and severe weather.

There are three warning levels:

Advice (Yellow): An incident has started. There is no immediate danger. Stay up to date in case the situation changes.

FI.OOD

Watch and Act (Orange): There is a heightened level of threat. Conditions are changing and you need to start taking action now to protect you and your family.

Emergency Warning (Red): An Emergency Warning is the highest level of warning. You may be in danger and need to take action immediately. Any delay now puts your life at risk.

www.australianwarningsystem.com.au

Bureau of Meteorology – for information on rainfall, weather radar, river heights and flood predictions. www.bom.gov.au

What do Bureau of Meteorology warnings mean?

Severe Weather Warning

A general warning to expect unusual conditions which may include:

- Gale force winds and gusts
- · Heavy rainfall with potential for flash flooding
- Abnormally high tides

Flood Warning

A flood is expected or already occurring

You need to have everything secured and safe

Severe Thunderstorm Warning

A general warning to expect unusual thunderstorms which may include:

- Large hail
- Lightning
- Damaging wind gusts
- Heavy rainfall with potential for flash flooding

Flood Watch

There is a potential for a flood to occur

You need to enact your flood plan

EMERGENCY ALERT.

WARNED. BE INFORMED.

You may receive a voice message sent to your landline and a text message to your mobile phone if there is an imminent threat. The message will tell you what is happening and what you need to do.

Emergency Alert Channel

DO NOT BLOCK +61 444 444 444

www.emergencyalert.gov.au

What is the difference between AWS warnings and Bureau of Meteorology (BoM) warnings?

The Bureau's products provide information about a hazard, whereas the AWS warnings will be issued by relevant hazard management agencies and will focus on providing locally specific action-based advice, and information about the expected impacts in the warning area. AWS warnings are not intended to replace BoM weather warnings, as the two products serve different purposes.

Always call 000 in life threatening situations 5

WHAT TO DO WHEN THERE IS A FLOOD

Flood Watch

- Move livestock and horses to higher ground on or off property and make sure they have access to clean water and food
- Ensure all animals are in a safe area where
- they cannot be trapped by rising floodwater
- Remove pumps from waterways
- Move equipment where possible tractors, farming equipment, utes and other vehicles
- Secure moveable objects such as shipping containers and bale feeders
- Remove debris from paddocks irrigation pipes, timber, scrap, metal, tools etc
- Store all chemicals securely and out of potential floodwater level
- Check that your emergency kit is ready –
 include portable radio, torch, batteries, first
 aid kit, food and water for five days
- Make sure you have essential documents at hand – emergency contact list, legal documents and accounting records.
- Check on neighbours where possible

Flood Warning

- Always stay up to date with emergency warnings and other public messages so you know if things are likely to change and what to do
- Stay in touch with nominated contacts
- Seal areas around the home and other farm buildings to keep out water and vermin
- Lock storage sheds and sandbag where necessary to prevent water entering
- · Keep pets safe and out of floodwater
- Send staff and visitors home
- Be prepared in the event you have to evacuate
- If you plan to leave, leave early

Evacuation Warning

- Act Early
- Be prepared to evacuate with your pets and emergency kit
- Stay up to date with emergency warnings and public messages

Never Enter Flood Water

WHAT TO DO AFTER A FLOOD

Livestock and horses

If you have livestock or horses you will need to make sure they are safe and well and still have access to fodder and water.

- In the Boulia Shire, you may wish to notify the Boulia Shire Council Rural Lands Protection Officer or your neighbouring properties if any stock are missing.
- If any of your livestock or horses are injured contact your veterinarian.

Carcasses

- Keep records of any animal loss.
- You need to dispose of carcasses quickly. You can do this by composting on site or burial.
- Information about disposing of carcasses can be provided by the Boulia Shire Council Rural Lands Protection Officer.
 The Department of Agriculture and Fisheries, Queensland may also be contacted.

Cleaning up

Floodwaters can be contaminated by sewage, chemicals or other waste which can cause illness and infection. When cleaning up:

- Always wear protective clothing including gloves, boots and eye goggles.
- Follow the safety instructions on the labels of any disinfectants or products you use.
- Watch out for snakes and spiders.
- Wash your hands thoroughly and maintain hygiene.
- Watch out for sharp objects.
- Do not move anything unless it is safe to do so.
- Contact your local Council about disposal of large items.
- Photograph any damage for insurance purposes.
- QLD health also has information on cleaning up after a flood available online.

Ensure your property is flood ready

1. FLOOD READINESS CHECKLIST

Identify the risks and hazards on your property

How flood ready are you?

Complete this flood readiness checklist to find out. Compile the list of actions you need to carry out on the blank page provided.

LIVES	TOCK AND HORSES
	My livestock and horses can be injured or drown
Solutio	on: I have access to high ground for my livestock and horses
	I have high ground available that can cater for all livestock.
	I have separate stables or access to portable yards for my horses which are located on high ground.
	I have identified alternative site(s) that are available for my livestock and horses, and the landowner has agreed to allow me access when a flood is likely.
	The access to my high ground is clear of debris and easy to get to. My high ground has access to fresh water supply for at least 3 days.
	My high ground has fodder available or sufficient fodder is stored on site for at least 5 days.
	My livestock and horses have used the high ground/stables previously and are familiar with the area.
	My high ground has shading and/or a windrow.
Solution	on: I have alternative arrangments to move stock
	I have a livestock carrier or arrangements with another livestock carrier to move my livestock when a flood is likely.
	I have a horse float or arrangements for access to a horse float to move my horses when a flood is likely.
	The roads, bridges and muster routes to the property are useable in severe weather.
	The time required to move livestock/horses off my property to other locations is known.
	I will consider selling my stock.
Solutio	on: I am aware of the different needs of my livestock and horses
	I know the temperament of my livestock and horses and whether they need to be separated from other animals.
	I keep a record so I know if any of my livestock/horses need extra care e.g. pregnant, vaccinations, medical treatment.
	I store my vet medicines and treatment plans where I can get them quickly in an emergency.
	I have an alternative cooling source for medicines that will need to be refrigerated e.g. 12 volt fridge.
Solution	on: I can provide emergency first aid for my livestock and horses
	I know how to provide basic first aid to my livestock.
	I have a livestock first aid kit e.g. bandages, saline solution, cool pack, antibacterial solution.
	I have contact details for my vet.
	I have transport available for carrying injured horses if needed.
FENC	ES AND GATES
	I could lose fencing.
Soluti	on: My fences are in the most appropriate location to allow flood waters to pass without damage
	My fencing is made from appropriate and sturdy materials.
	My fencing has no gaps or breaks and is in good repair.
	My fencing is free of debris and weeds.
	My gates are secure and can easily be opened when needed.

	My neighbour (or other emergency nominee) have the keys/codes to my gates.
	In flood times my gates are unlocked to allow access for emergency vehicles.
	I have the tools and enough materials to do emergency repairs to my fences and gate.
OBJEC	TS THAT CAN BE WASHED OFF OR ONTO MY PROPERTY
Risk: N	Noving objects can cause injury and damage my property and fences
Solutio	n: My property is clear of objects that can be moved by flood waters
	My property is free of waste and unused items that can cause hazards e.g., tractor parts, car bodies, bale feeders, piles of wire, old fence posts, tools, skip bins.
	The shipping containers on my property are secured so they will not be washed away by flood waters.
	My vehicles are parked in a secure place where they cannot be washed away by flood waters. e.g., Ute, tractor, car, caravan, trailer.
	I can move my vehicles to a high area off my property if required.
	My farm tools and machinery are stored in a secure place where they cannot be washed away by flood waters.
	My round bales are stored in a secure area where they cannot be washed away by flood water.
Risk: (Objects can be washed onto my property and cause damage or injure livestock
Solutio	n: I know what could be washed onto my property and take action to prevent it
	I am aware of what the hazards are on the properties around mine that could be washed onto my property and cause damage.
	I have arrangements with my neighbours to take action to prevent livestock/horses being washed onto my property. e.g., unlock gates, cut fences.
	I monitor what is in the catchment that could wash onto my property and take action to have them maintained or removed e.g., noxious riparian weeds, car bodies.
CHEM:	ICALS AND FUEL
Risk: (ICALS AND FUEL
Risk: (CALS AND FUEL Chemicals and fuel stores can be damaged or washed away by flood waters and leak
Risk: (CALS AND FUEL Chemicals and fuel stores can be damaged or washed away by flood waters and leak on: My chemicals and fuels will not be affected by flood waters
Risk: (CALS AND FUEL Chemicals and fuel stores can be damaged or washed away by flood waters and leak on: My chemicals and fuels will not be affected by flood waters I have removed all old and unnecessary chemicals, waste oil and fuel from my property.
Risk: (CALS AND FUEL Chemicals and fuel stores can be damaged or washed away by flood waters and leak on: My chemicals and fuels will not be affected by flood waters I have removed all old and unnecessary chemicals, waste oil and fuel from my property. I have an inventory of all chemicals and fuel on my property.
Risk: (Chemicals and fuel stores can be damaged or washed away by flood waters and leak on: My chemicals and fuels will not be affected by flood waters I have removed all old and unnecessary chemicals, waste oil and fuel from my property. I have an inventory of all chemicals and fuel on my property. All chemicals and fuels are stored in a secure, lockable shed with adequate ventilation.
Risk: (Chemicals and fuel stores can be damaged or washed away by flood waters and leak on: My chemicals and fuels will not be affected by flood waters I have removed all old and unnecessary chemicals, waste oil and fuel from my property. I have an inventory of all chemicals and fuel on my property. All chemicals and fuels are stored in a secure, lockable shed with adequate ventilation. All chemicals and fuel are stored off the ground.

PREPARE TO BE ISOLATED			
Risk: I	My property can become isolated		
Solutio	on: I have enough supplies to last 5 days		
	I have enough clean water for drinking to last 5 days.		
	I have enough non-perishable food that doesn't need to be cooked or stored in a fridge for 5 days, or I have alternative cooking and cooling e.g., Gas, BBQ, 12 volt fridge.		
	I have a first aid kit and enough medicines for 5 days.		
	I have all the contacts I need in an emergency e.g., written list, stored in phone. I have a battery-operated radio.		
	I have alternative power sources for my electricity and my phone e.g., generator and fuel, solar power, two-way radio inverter.		
	I have a torch and batteries or other source of lighting e.g., solar power lights. I have enough blankets and warm clothes stored in a dry area plus sandbags or alternative.		
	I have enough food, water and all the things I need for my pets.		
	I have a safety distress sheet or similar so I can alert people and emergency services that I need help e.g. V sheet.		
PREP	ARE TO BE EVACUATED		
	I might be evacuated and have to stay somewhere else for a few days		
	on: I have a plan for what needs to be taken		
	My legal and important documents (e.g., birth certificate, passport) are stored in a waterproof sleeve and kept in a place where I can quickly access them.		
	My scripts are up to date and my medicines are stored in a place where I can quickly access them.		
	I have an emergency bag which includes clothes, toiletries and medicines ready to take with me if I am evacuated.		
	I have a secure waterproof place to store my important personal belongings e.g., photos, mementos.		
	I have emergency contacts, devices (laptop, mobile phone) plus food and vaccination details for pets.		
CLEAN	ALUD AND DEDATIC AFTED THE FLOOD		
	N UP AND REPAIRS AFTER THE FLOOD If I don't know what to do after a flood I can't get things back to normal		
	on: I have a plan for what needs to be done after a flood		
	I have enough tools and materials stored to fix essential fences and clear trees and branches that have fallen on my property.		
	I have arrangements with my neighbours and other farmers to share tools and work together to fix things that are dangerous or unsafe.		
	I have the appropriate cleaning products and protective clothing to clean up areas affected by contaminated water. from septic tanks, chemical or fuels.		
	I know what to do with livestock carcasses and who to contact if I need help.		
	My livestock can be clearly identified if they are found off my property e.g. NLIS devise or tags.		
	I have an inventory of all heavy machinery, vehicles and major equipment on my property.		
	I have sufficient fodder stored if my pastures are damaged, unsafe or unable to be used by livestock		
	I will consider selling my stock if I don't have sufficient fodder.		
ENSU	RING MY BUSINESS CAN CONTINUE TO OPERATE		
Risk: 1	am a Primary Producer and I can't continue production if I don't have all the things I need		
Solutio	on: I have alternatives for the essential services and things I need		
	I have essential business documents stored in a safe, waterproof area and backups of electronic documents.		
	I have a generator or alternative source of power.		
	I have a generator or alternative source of power. I have an alternative power source for my mobile phone, computer and other business equipment.		
	I have an alternative power source for my mobile phone, computer and other business equipment.

2. FLOOD PLAN

Identify what needs to be done when a flood is coming

What will you do when it floods?

It is important that you are prepared in the event of a flood and have a flood plan developed for your farm. Your flood plan needs to include as much information as possible about all the actions that need to be done to respond quickly in the event of a flood. Remember to involve your nominee, neighbours and family as they will also need to be familiar with your flood plan if you are away or unable to put it in place yourself. This template is designed to help you develop your flood plan.

Property name				
Property address	3			
GPS Long:	Lat:	PIC		Lot/DP
WHEN A	FLOOD W	ATCH IS A	NNOU	INCED I WILL:

Use this page to draw diagrams or maps or to write extra instructions if needed.	

Use this page to draw diagrams or maps or to write extra instructions if needed.	

3. FLOOD NOMINEE FORM

Identify who will put your flood plan in place if you're away

What if you are away when it floods?

Complete this form and give it to your nominee. You may also want to give your nominee a copy of your Flood Plan.

If you are not living on your property, or will be away when there is a flood watch or warning, who will be there to put your flood plan in place?

Make sure your property can be made flood safe even when you are away by:

- Nominating a person who will be responsible for putting your flood plan in place when you are away. Make sure they are willing to help, know what to do, where things are stored and how you can be contacted.
- Go through your flood plan with your nominee on paper and in the paddock.

Important...

If you are going to be away from your property you need to have an emergency nominee who knows your flood plan and what to do. This could be a family member, farm manager or neighbour.
