

PUBLIC NOTICE

Water Wise Message

As we move into the summer months, Council urges the community to remain vigilant about water usage by ensuring no excessive water use in and outdoors of their homes.

Whilst no water restrictions have been imposed to date, a close watch is being kept on the town's water supply and we are confident that **responsible water use will alleviate any potential problems and the need for water restrictions to be enforced**. Even the smallest and simplest efforts to be water wise can make a difference to the Boulia water supply.

The Boulia Shire Council appreciates the co-operation of residents and businesses on this matter and any questions may be directed to the Council office on 4646 3188.
